UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

June 8, 2012

Enbridge Energy, Limited Partnership
c/o Mr. Rich Adams
Vice President, Operations
Superior City Centre
Second Floor
1409 Hammond Ave.
Superior, Wisconsin 54880

Dear Mr. Adams:

By letter dated May 30, 2012, the United States Environmental Protection Agency (U.S. EPA) stated that it would provide further direction to Enbridge regarding containment in the fan of Morrow Lake.

During our meeting with Enbridge on June 7, 2012, Enbridge staff proposed an alternative containment strategy to installation of Control Point (CP) E4.5 to prevent the continued migration of oil, oil sheen, submerged oil, and oil-containing sediments into Morrow Lake. Next week, U.S. EPA would like to continue our discussions with you regarding this alternative.

If you have any questions regarding this letter, please contact me immediately at (231) 301-0559.

Sincerely,

A handwritten signature in black ink, which appears to read "R. Dollhopf", is positioned below the word "Sincerely,".
